

Abortion Fact Sheet

- About 1 Billion total abortions done worldwide, 45 million in the U.S. alone.
- 3,000 people killed on 9/11/01--> we have spent billions hunting down terrorists as a result. 3,700 babies are killed everyday through abortion and we fund it through Planned Parenthood!
- Less than 1% of babies aborted are aborted due to incest or rape and 6% because of "health risks" for the mother

What They Will Say

1. It is Not a human

- based on what standards?
- **Genesis 16:11, 38:25; Matthew 1:18,23; Psalm 139:13**

2. Can't take care of itself

- Neither can a 3 month-old, a young child and even some teenagers! Should we "abort" them as well?
- Maybe we should kill all of the mentally retarded people and elderly people according to this standard as well!

3. Unwanted

- They are not! The number of people waiting to adopt is about equal to the number of babies aborted every year

4. What about rape/incest?

- Kill the one who raped or committed incest then! Don't murder the baby for the sins of the father! Remember this is less than 1%, so don't let them get you on this!

5. What about the mother's "health risks"?

- Doctor's aren't always right. Maybe they aren't as at risk as the doctor says. Life and death are in the hands of God only, not human beings!

6. Inconvenience financially or socially

- Don't have sex then or at least use "protection"!
- What child isn't an inconvenience financially or socially?

Other Scriptures To Use

- **Deuteronomy 27:25; Proverbs 6:16,17; Exodus 20:13; Galatians 5:19-21; 1 John 3:15**
