

## Quotes About Evolution

**Grant R. Jeffrey**, *The Signature of God* said, "Darwin admitted that millions of 'missing links,' transitional life forms, would have to be discovered in the fossil record to prove the accuracy of his theory that all species had gradually evolved by chance mutation into new species. Unfortunately for his theory, despite hundreds of millions spent on searching for fossils worldwide for more than a century, the scientists have failed to locate a SINGLE MISSING LINK out of the millions that MUST EXIST if their theory of evolution is to be vindicated."

**G.K. Chesterton** said, "The evolutionists seem to know everything about the missing link except the fact that it is STILL MISSING!"

**Sir Fred Hoyle**, professor of astronomy, Cambridge University, said, "The change that higher life forms might have emerged in this way (macro-evolution) is comparable to the chance that a tornado sweeping through a junkyard might assemble a Boeing 747 from the materials therein."

**Adolf Hitler** said, "If you tell a lie long enough, loud enough and often enough, the people will believe it." (*The Third Reich at War*, p.38) & People are "more likely to believe a big lie than a small one."

**Sir Arthur Keith** (author of foreword to *The Origin of the Species*, 100th edition) said, "Evolution is unproved and unprovable. We believe it only because the only alternative is special creation, and that is UNTHINKABLE."

**H.S. Lipson**, professor of physics, University of Manchester, UK said, "In fact, evolution became in a sense a 'scientific' religion; almost all scientists have accepted it and many are prepared to 'bend' their observations to fit in with it."

**Professor Louis Bounoure**, Director of Research, National Center of Scientific Research, said, "Evolution is a fairy-tale for grown-ups. This theory has helped NOTHING in the progress of science. It is USELESS."
